## PROJECTS

### Personal Portfolio

<https://sudipacharya456.com.np>

A personal portfolio that is featuring seamless animations and transitions.

May 2024 - July 2024

- Utilized GSAP (GreenSock Animation Platform) to create visually engaging animations and smooth user interactions.
- Implemented Tailwind CSS for efficient and responsive design, ensuring a clean and modern aesthetic.
- Built the site using React.js and Node.js for a robust and scalable architecture.

### Ultimate Cards

<https://ultimate-cards.vercel.app>

A hobby website that is created using GSAP and Lenis that shows the optimization of the animations and images.

May 2025 - Jun 2025

- Built a visually engaging website using GSAP, Lenis, Tailwind CSS, and vanilla JavaScript.
- Created a smooth-scrolling animated UI with Lenis.js and GSAP, styled beautifully with Tailwind.
- Implemented fluid scroll-based animations and responsive design using modern frontend tools.
